Experience

PlotMyData   **August 2022 – October 2022 (2 Months)**
Software Development Engineer Intern   *Mumbai(Remote), India*

- Made Interactive Dashboards using **React.Js/D3.js/HTML/CSS/JAVASCRIPT.**
- Improved the overall design of the current website
- Re-design dashboards that are already published
- Wroked on a website in which first we take data from user in the form of CSV or an API then we convert that data in to a table with the help of **Papaparser** and then we convert that table into a graph (bargraph,linegraph,piechart,flow-chart and many more) with **d3.js** after that user can use the extension of that graph in his/her website.

Tillotoma Foundation   **April 2022 – April 2022 (1 Month)**
Front End Developer Intern   *Delhi(Remote), India*

- Improved their website overall design by using **React.Js/Tailwindcss.**
- Fixed login failures by using **Firebase**

Projects

CrownClothing | *React.js,Firebase,Scss* | Website Link(Click Here)   **4**
- An Ecommerce website in which user can buy products,add items to cart and rate products.
- User can login with Goggle account as well as Email password.
- Admin can add,delete,update product details.

CryptoBase | *React.js,Firebase,Tailwindcss* | Website Link(Click Here)   **4**
- CryptoBase is a handy Cryptocurrency tracking web application. The App uses a Coin Gecko REST API to fetch live exchange rates and detailed market data.
- An user interactive website which describes different cryptocurrencies from different places and an authorised user can add those currencies in his favourites so he/she can filter data and tells you about the price drop and hike for certain crypto currency.
